

You can bring color into a child's life...

YOU CAN MAKE A DIFFERENCE TO THE LIVES OF CHILDREN BORN INTO BROTHELS

Vibha currently is funding an organization called **Guria** in Varanasi, India. Vibha is a 501(c) (3) non-profit organization in USA whose mission is to make a positive difference to the lives of underprivileged children. **Vibha-Washington DC** is one of 14 Vibha Action Centers in the US. We organize various events in the local community to raise awareness and funds to support our projects.

Vibha has a network of 600 volunteers. Till date, we have supported 160 projects in India and 10 in the US.

Main objectives of Guria:

- Education & Rehabilitation of children
- Ending Child Prostitution
- Stopping Second Generation Prostitution

To that end, Guria is running a Balwadi (child care center) in the red light district of Varanasi to educate children of sex workers. But, the children have to return to the unhealthy atmosphere of sex and drugs in the night. This has had adverse impact on Guria's efforts and has led to increased drop out rates from school.

By providing refuge to the children during nights, the night shelter will shield them from perils of society and give them an opportunity of a normal childhood. This will also prevent vulnerable girl children from becoming victims of the surroundings and entering the flesh trade. The project funded by Vibha directly impacts 40 children.

Guria, Vibha Funded Project, is running a Balwadi (child care center) in the red light district of Varanasi to educate children of sex workers.
